Hobbies

Besides programming, in my free time I also have a love for adventure and exploring new places. Whenever I can, I try to escape the city and go into nature. I love to go for hikes and discover new scenic spots. I also enjoy capturing memories of my travels and experiences through photography. Taking pictures allows me to freeze a moment in time and preserve it forever. It's a wonderful hobby that combines my love for adventure and creativity.

Profile

I am Roland Sebestyen and my passion lies in Web Development. I am always eager to explore new and cutting-edge technologies. In the field of Web Development, I have a broad range of experience with several technologies and programming languages including JavaScript, Typescript, Angular, React, Ruby, and NodeJS. My goal is to work as a Full-Stack developer. I am a quick learner and prefer to find the most suitable solution for a situation, rather than being limited to one particular language or framework. I am determined and never give up until I find the answer. I am also passionate about challenges and enjoy facing them. Staying up-to-date with the latest advancements in Web Development is a daily priority for me.

Employment History

Frontend Technical Lead, Unifiedpost, Timisoara

2019 — PRESENT

As a Frontend Technical Lead, I have the opportunity to work with and be responsible for the following:

- Setting up and building a Design System using Storybook and React
